

# Evidence Presentation Wired Instructions

*For a wired connection, a 15ft-25ft HDMI cable is suggested*

**1**

Connect one end of the HDMI to the attorney laptop/device.

**2**

Connect the following end of the HDMI into the port on the side of black rack.

**3**

Locate and use the projector remote to press **#4** for the evidence input.

A successful connection will automatically display laptop content to the courtroom projector.
